19 June 1958

MEMORANDUM FOR: Chief, TSS/APD

SUBJECT : ONR Balloon Flight Carrying TV Equipment

1. On approximately 15 July 1958 the Office of Naval Research intends to make a manned balloon flight to approximately 80,000 feet above sea level. The purpose of this flight is to evaluate special equipment to be used to photograph the planet Mars from high altitude in November of this year. Included in the flight equipment will be a small TV camera which will be operated by the balloon pilot and monitored in the contractor's plant in Minneapolis, Minnesota.

2. ONR has invited any Agency interested personnel to view the monitoring screen if they so desire. Any such personnel may obtain further information from [redacted] Room 212, West Outbuilding, extension [redacted]
